

A Clever Water Reminder

Problem, solution and inference

Name: _____

Date: _____

READ OR LISTEN

During summer, the school garden needed careful watering. Some students watered every plant twice, while others missed the smaller beds. Meera suggested a chart with one row for each garden bed and a box for each weekday. After watering, a student marked the correct box. Within two weeks, the plants looked healthier and the class wasted less water. Their teacher praised the team for solving a problem together.

Choose each answer and explain which detail supports it.

1. What problem did the class face?

- ☐ Too much shade
- ☐ Missing seeds
- ☐ Uneven watering

2. What did Meera propose?

- ☐ a garden fence
- ☐ a watering chart
- ☐ a new playground

3. Why did the solution help?

- ☐ It showed which beds were watered.
- ☐ It made the sun brighter.
- ☐ It changed the soil into sand.

4. Which word best describes Meera?

- ☐ careless
- ☐ impatient
- ☐ resourceful
